

FELIMAZOLE®

A problem precisely answered

Now available in blister packs

Easier for owners to open, easier for you and your team to dispense, and ensures the remaining tablets in the pack stay sealed until they are needed.

Available in three strengths 1.25 mg, 2.5 mg and 5 mg each pack contains 4 blisters of 25 tablets.

91%
of cat owners

have high levels of confidence that their cat has received the correct dose when giving a tablet to treat hyperthyroidism*

*Internal Report FEL0318

FELIMAZOLE: Felimazole contains thiamazole
